COMMITMENT to COMMUNITY Program

An Easy Way to Raise Money for your Organization!

Sun National Bank realizes the importance of growth and success in non-profit groups and organizations. Their performances have a great impact on the communities in which we all live and work, and Sun recognizes that.

Our **COMMITMENT to COMMUNITY** program offers an easy way to raise money for your organization. The more members of your group or organization that bank with us, the more money your organization can earn, ***at no cost to you!***

How it works:

Sun will make a monthly donation to your organization based on the number of your members that open a checking account* with direct deposit during that month.

Donations to your organization:

A \$25 contribution for each member that opens a checking account with direct deposit.

As soon as your organization is registered, spread the word and we'll start tracking your participating members' checking accounts opened with direct deposit. Be sure to let us know they are members of your organization at the time they open their accounts.

Information regarding account included in the program is kept strictly confidential.

*Monthly service fees may apply.
